Het is belangrijk om bij de eerste creaties de liedtekst na te lopen op juiste uitspraak.

Eventueel tekst verlengen, bijvoorbeeld: "I lo-o-o-o-ve you as dearly as my refridgerator."

LYRICS INPLAKKEN

-----  
[Ethereal drone]

mmm, mmm

[INTRO][Crystal-clear mature female voice, soaring vibrato]

"You are enough " whispers the forest

While I am awake and aware,

I wake up and don't know where I am

under a brooding heap of leaves..

Cold and damp

[spoken word][Crystal-clear mature female voice, soaring vibrato]

I have to get going

[melodic interlude]

[Verse 1][Crystal-clear female voice]

The city murmurs silently.

A tempest drowns in floods of light.

Trains wriggle like writhing worms,

A chaos that devours my world.

My breath stilled, caught by waves.

Of haste and loss.

"A missed train, a lost day..."

My energy fades, unseen in fog.

The night is heavy, my body stone.

The city weeps in quiet tones.

"One breath at the same time," I think.

Thirty seconds for a start.

I roll a glimpse of force, deeply.

Deep inside of me.

[end verse]

[Chorus][Crystal-clear mature female voice, soaring vibrato]

Even though fate feels unfair

You'll find your path shines through.

Let the truth, now and alone,

Be your destiny and joy.

[End chorus][Breath-like reverb, echoing shakuhachi melody]

[Verse 2][Crystal-clear mature female voice, soaring vibrato]

Even if you walk stripped and naked,

Shivering down the garden path.

With fragile branches breaking softly

Beneath your faltering, weary feet.

If echoes from your past arise,  
And present tears fall heavy-eyed  
That wander softly through your arms  
In slender, flowing streams,  
Where sunlight dances, softly glints  
And warmth igniting tender skin,  
And you awaken, knowing well  
Who truly stand beside you.  
Let the truth, now and alone,  
Be your destiny and your joy.

[end verse]

[Pre-chorus][Crystal-clear mature female voice, soaring vibrato]

you are enough (enough), you are enough (enough)

The forest whispers to me.

I gather strength facing the storm.

And dream of walking free.

[end pre-chorus]

[Chorus][Crystal-clear mature female voice, soaring vibrato]

Even though fate feels unfair

You'll find your path shines through.

Let the truth, now and alone,

Be your destiny and joy.

[End chorus][Breath-like reverb, echoing shakuhachi melody]

[melodic interlude]

[emotional bridge][Crystal-clear mature female voice, soaring vibrato]

I cannot run, my feet feel like logs.

But the giants, now seems to be.

Heavy teddy bears, so soft.

They say: "You were never lost in the dark."

They strongly lift me on

Their furry claws feels so comforting

Floating mid-air, I scream joy.

that coffin feeling round me, falls off

The Sun returns, she glares through the trees.

My hope revives, I float free

Embraced by softness, frayed endlessly

I am just everywhere.

[end spoken word]

[instrumental][Dynamic crescendo][Soulful flute and tabla interplay]

[hook][female voice]I cherish myself, cherish my child.

I do what I like.

[Chorus][Crystal-clear mature female voice, soaring vibrato]

Even though fate feelsunfair

You'll find your path shines through.

Let the truth, now and alone,

Be your destiny and joy.

[End chorus]

[Outro][fade out]

You-ou are enough

[END]

Tip: vul de 3000 tekens op (dus met alle tags erbij), dit voorkomt herhalingen van een bepaald stukje om de tijd tot 4 minuten te vullen. Gebruik [END] tag na verse en chorus.

Tip: heb je goed nummer. Maak 3 x een Extend, zodat je 6 files hebt met mogelijke eindes. Maak ook 3 x intro. Doe ook instrumentale versies erin. Maar ook met tekst. Laat de tekst zoals die is, of haal weg. Kan allebei. Niet pielen. Alleen met de tijd waarop de Extentie zou moeten invallen.... In Audacity mooie stukjes aan elkaar knopen door te

letten op de pieken van de sound, die op elkaar afstemmen. Via Fade In en Fade Out effect mooie overgangen make (op verschillende stereo sporen onder elkaar).

Suno Cheat Sheet:

## Suno Cheat Sheet

### 1. Song Structure Metatags

-----

[Intro]: Marks the beginning of the song

[Verse]: Indicates a verse section

[Pre-Chorus]: Prepares for the chorus

[Chorus]: Highlights the main chorus

[Post-Chorus]: Adds a section after the chorus

[Bridge]: Introduces a contrasting section

[Outro]: Marks the end of the song

[Hook]: Emphasizes a catchy part

[Break]: Introduces a break in the song

[Fade Out]: Gradually decreases volume to end the song

[Fade In]: Gradually introduces a section

### 2. Instrumental Metatags

-----

[Instrumental]: Adds an instrumental section

[Guitar Solo]: Features a guitar solo

[Piano Solo]: Features a piano solo

[Drum Solo]: Features a drum solo

[Bass Solo]: Features a bass solo

[Instrumental Break]: Insert an instrumental section

### 3. Vocal Metatags

-----

[Male Vocal]: Specifies male vocals

[Female Vocal]: Specifies female vocals

[Duet]: Indicates a duet

[Choir]: Adds choir vocals

[Spoken Word]: Creates a section with spoken vocals

[Harmonies]: Adds vocal harmonies

[Vulnerable Vocals]: Generates raw, emotional vocal performances

[Whisper]: Generates softer, whispered vocals

#### 4. Specific Elements Metatags

-----

[Catchy Hook]: Creates a memorable hook

[Emotional Bridge]: Adds an emotionally intense bridge

[Powerful Outro]: Ends the song with a strong outro

[Soft Intro]: Starts the song softly

[Melodic Interlude]: Adds a melodic break

[Percussion Break]: Introduces a percussion-focused section

#### 5. Atmosphere and Mood Metatags

-----

[Eerie Whispers]: Adds faint, unsettling background vocals

[Ghostly Echoes]: Creates reverb-heavy, ethereal sounds

[Ominous Drone]: Introduces a low, continuous tone for tension

[Spectral Melody]: Generates a haunting, otherworldly melody

[Melancholic Atmosphere]: Creates a sad or reflective mood

[Euphoric Build]: Builds towards a joyful climax

[Tense Underscore]: Adds underlying tension to the music

[Serene Ambience]: Creates a peaceful, calm atmosphere

[Nostalgic Tones]: Evokes a sense of nostalgia

## 6. Dynamic and Progression Metatags

-----

[Building Intensity]: Gradually increases musical intensity

[Climactic]: Reaches a musical high point

[Emotional Swell]: Creates a gradual build-up of emotional intensity

[Layered Arrangement]: Creates complex, multi-instrumental arrangements

[Orchestral Build]: Gradually introduces orchestral elements

[Stripped Back]: Reduces instrumentation to bare essentials

[Sudden Break]: Introduces an abrupt change

[Crescendo]: Gradually increases volume/intensity

[Decrescendo]: Gradually decreases volume/intensity

Short example of part of a personally completed song using these methods:

[Intro: Jazzy piano chords with a lo-fi crackle, distant sleigh bells, and a laid-back drum loop.]

[Spoken Word]

"Yo, it's the most wonderful time... and the most stressful.

From the gift wrap to the setbacks, let's talk about it.

Detroit, let's vibe."

[Chorus: Smooth, soulful hook with layered harmonies and a saxophone riff between lines.]

It's the holly and the hard times, joy and the grind,

Snow on the streets, but the heat's in the rhymes.

Eggnog and missteps, family and debt,

Lightin' up the tree, tryin' hard to forget.

## **Perfect Studio Vocals**

[ Melismatic Runs Multiple notes sung on one syllable, showcasing vocal flexibility and emotion. R&B, Gospel, Soul, Pop Lead vocals, choir (alto/soprano) Melisma, embellishment, elongation (Melismatic)]

## **Sound Effects**
